

HANDY CLIPPER

The Handy Clipper is a versatile machine designed for smaller clipping and unclipping applications for PANDROL FASTCLIP. It has its own power supply and its ergonomic design enhances operator comfort together with efficient operation.

The Handy Clipper is supported by a wheel on the head of the rail to relieve the operator of excess fatigue. The design incorporates quick connect hydraulic connections for each different work head to ensure quick and easy changeover to different work functions.

The design of the clipping tool, automatic sleeper lifting of 10mm can be achieved.
