

HY-RAIL MIDI 5-9 TONS

- For the most common types of midi excavators.
- Designed for stability and flexibility.
- All manoeuvring from the driver's cabin.
- The hydraulics do not need extra swivel implements.
- The rail wheels are designed according to UIC.
- Speed on track 20 km/hour (12.4 mph)

The run wheels can be fitted in two different ways. Either on to the dozer blade or separately on an adapter provided with hydraulics.
