RAIL GRIP RG2500

The Rail Grip is a tool for lifting rails. The construction also allows towing of rails due to the towing support welded onto the side of it. When towing rails turn the support in the towing direction.

The Rail Grip is made of high-tensile steel, it's designed to be light weight and have a minimal number of moving parts.

It's an easy to use construction.

SPECIFICATIONS

Weight	5 kg (11 lb)
Maximum load	2500 kg (5510 lb)
Height	270 mm (10.6 in)
Width	160 mm (6.3 in)

*Please note that the unit pictured could be equipped beyond standard.
The company reserves the right to make changes without prior notice.*
