Tiltable and rotatable

SLEEPER REPLACER SB60

The SB60 Sleeper Replacer is designed to provide safe and efficient replacement of sleepers. It has tilt and rotate functions that allow sleepers to be changed from both the middle and side of the track.

It is also designed for effective movement and recessing of the track ballast. The high performance SB60 Sleeper Replacer holds a key function in a versatile, high output, cost effective and safe working method.

• Fits most types of sleepers.
• Avaible for all differnt track gauge.

Options:

• Clip Master - for fast and safe clipping of FASTCLIPS
• Buckets - for removing ballast on wet locations

CLIP MASTER

SB60 ATTACHEMENT

Clip Master 196 is a fastening attachment for PANDROL FASTCLIPS.

It is developed as an option to the Sleeper Replacer SB60 and is easy and safe to operate when replacing sleepers.

The clips are easily fastened by just pushing a button.

Clip Master 196, when standard equipped, is designed to handle the most common rail types and sleepers with FASTCLIPS.

Two units of the Clip Master 196 are required to equip a Sleeper Replacer SB60.
